VOLUME 2, ISSUE Nos 1-4

Issues Nos 1 and 2, January-June

Special Issue on Human MHC Class II Antigens:
Genetics, Structure and Function

Preface <i>The Editor</i>	1
List of Participants	3
The Contribution of Monoclonal Antibodies to Studies on the <i>HLA-D</i> Region <i>C. K. Hurley, R. C. Giles and J. D. Capra</i>	9
Analysis of HLA Class II (Human Ia) Products by Means of Murine Monoclonal Antibodies <i>C. Milanese, M. Fabbi, P. Richiardi, F. Caligaris-Cappio, P. Dellabona, E. Ferrero and F. Malavasi</i>	21
Comparison of RIA and ELISA for Screening Class II Monoclonal Antibodies with EBV Transformed Cell Lines <i>R. Solana, N. Fernandez, M. C. Alonso, C. Navarrete, J. A. Sachs and H. Festenstein</i>	33
Classification of Anti-class II Monoclonal Antibodies Based on Epitope and Molecular Assignment <i>R. S. Accolla, G. Corte and R. Tosi</i>	39
Monoclonal Antibodies Cross React with Products of Multiple Class II Gene Loci: Shared Epitopes among DR, DS and SB Loci <i>S. Goyert and J. Silver</i>	47
Survey of Workshop Monoclonal Antibodies by Inhibition of Fluorescein-labelled Reference Monoclonal Reagents, Double Labelling Studies on Monocytes and Inhibition of T Cell Recognition of Class II Antigens <i>P. Stastny, G. Nunez, L. Myers and E. J. Ball</i>	57
Detection of DR and MB Specificities on Class II Molecules Purified by MoAb using a Simple Microcytotoxicity Inhibition Assay <i>J. A. Sachs, M-C. Kuo, A. H. Johnson, G. Marti and J. A. Sogn</i>	69
A Monoclonal Antibody with MT2 Specificity <i>F. Koning, I. Schreuder, R. Bontrop, P. De Vries, M. Giphart, A. Termijtelen and H. Bruning</i>	75
The Molecular Localization of MT and MB Supertypic Specificities <i>R. Tosi and N. Tanigaki</i>	77
Aspects of the Fine Structure of the Human Ia System Revealed by Monoclonal Antibodies Directed to Polymorphic Determinants <i>T. Toguchi, G. Burmester, S. Waters, S. Seremetis, P. Gregersen, A. Nunez-Roldan and R. Winchester</i>	85
Idiotypic Relationships of 43 Monoclonal Antibodies to MHC Class II Antigens <i>O. Piatier-Tonneau, M. Viguiet, P. Debre and D. J. Charron</i>	93
Delineation of Serologically Distinct Monomorphic Determinants of Human MHC Class II Antigens: Evidence of Heterogeneity in their Topographical Distribution <i>I. G. R. Beckman, J. Bradley and H. Zola</i>	101

The Reactivity of Edinburgh Workshop Monoclonal Antibodies with Isolated Human Ia Antigens <i>N. Tanigaki</i>	107
Structural and Serologic 'Splits' of HLA-DR4 <i>P. Antonelli, G. T. Nepom, B. S. Nepom, B. Torok-Storb and J. A. Hansen</i>	113
α and β Chain Polymorphisms of HLA-DR4 Antigens <i>A. D. R. Alonzo, D. Jaraquemada, W. Ollier, C. Navarrete and H. Festenstein</i>	119
Polymorphism of HLA-DS Molecules <i>R. C. Giles, C. C. Chang, C. K. Hurley, R. DeMars and J. D. Capra</i>	127
Analysis of Antibody Specificity by Western Blotting <i>B. Cohen, D. Deane and M. Moxley</i>	135
Serology with 100 Monoclonal Antibodies to MHC Class II Antigens: An Overview of Workshop Presentations <i>D. J. Charron</i>	145
DR α and β Free Chains Detected by Electrophoretic Transfer <i>V. Lotteau, B. Boyer, P. Debre and D. J. Charron</i>	151
Glycosylation and Biosynthesis of Human HLA-D Region Antigen-associated Invariant Polypeptides <i>C. E. Rudd, J. G. Bodmer, W. F. Bodmer, and M. J. Crumpton</i>	153
Regulation of MHC Class II-associated Invariant Chain Synthesis <i>H. J. Rahmsdorf, L. Forni, U. Mallick and P. Herrlich</i>	161
Three Distinct Forms of γ (Invariant) Chain Associate with Ia Antigens <i>D. O'Sullivan and V. Quaranta</i>	169
Mutations that Dissect the D-region of a Human B-lymphoblastoid Cell Line <i>R. DeMars</i>	175
Binding Specificity of Anti-human Ia Monoclonal Antibodies Analysed with HLA-deletion Mutant Cell Lines: Patterns of Binding to Products of Two Different HLA Haplotypes and of Three Subregions of a Single Haplotype <i>S. Shaw and R. DeMars</i>	183
Characterization of 59 Workshop Monoclonal Antibodies using Panels of EBV Transformed HTC and Deletion Mutant Cell Lines <i>N. Fernandez, R. Solana, J. A. Sachs, C. Navarrete and H. Festenstein</i>	197
Expression of a Single HLA-DR Antigen on DNA Transfected Mouse Cells: Analysis by a Panel of Monoclonal Antibodies <i>C. De Pr��val, C. Rabourdin-Combe, J. Gorski and B. Mach</i>	207
Immunocytochemical Characterization of Monoclonal Anti-HLA-DR Antibodies <i>A. K. Ghosh, K. C. Gatter and D. Y. Mason</i>	223
Studies on the Tissue Distribution of Class II Antigens <i>S. V. Fuggle, N. P. Carter, A. Ting and P. J. Morris</i>	235
Variable Expression of HLA-DR Antigens in the Human Kidney <i>P. R. Evans, L. P. Trickett, J. L. Smith, A. G. MacIver, D. Tate and M. Slapak</i>	251

Monoclonal Antibodies against Human MHC Class II Antigens: Analysis of Binding to HLA-D/DR Homozygous Cells, Melanoma Cell Lines and Isolated IA Antigens <i>J. P. Johnson</i>	255
Binding Pattern of Monoclonal Antibodies with Specificities against MHC-class II-determinants on HLA-DR Homozygous Lymphoblastoid Cell Lines <i>W. Leibold and R. A. Gatti</i>	263
Induction of Class II Antigens on Monocytes Cultured with Gamma Interferon <i>P. A. Robbins, F. M. Brodsky, N. L. Warner and V. C. Maino</i>	267
The Two Colour Fluorescence Technique is useful for the Identification of Monocyte Specific Antigens <i>M. J. Jager, A. Van Leeuwen and J. J. Van Rood</i>	281
Anomalous Expression of MHC Class II Antigens on Human Monocytes <i>K. Guy, A. W. S. Ritchie and V. Van Heyningen</i>	283
Disparity in HLA-DC Antigen Expression on Chronic Lymphocytic Leukaemia Cells <i>K. Guy, V. Van Heyningen, A. Ziegler and C. M. Steel</i>	287
The Role of HLA Class II Antigens in Cell Mediated Immunity: Potential Importance of the Selective Absence of HLA-DC Antigens from Acute Leukaemias <i>H. Festenstein, C. Navarrete, D. Jaraquemada and L. Fainboim</i>	295
Molecular Defect of MHC Class II Antigens in Hairy Cell Leukemia: Restoration by TPA <i>A. Faille and D. J. Charron</i>	303
Expression of MHC Class II Antigens on Human Blood Lymphocytes: Studies in Relation to B Cell Neoplasia and Cell Proliferation <i>G. Brown, L. Walker, N. R. Ling, I. C. M. MacLennan, P. Richardson and G. D. Johnson</i>	305
Effect of Anti-class II Monoclonal Antibodies on Human T Cell Function <i>A. Moretta and R. S. Accolla</i>	313
Functional Properties of Monoclonal Antibodies Against MHC-class-II Determinants on Cellular Reactions with DR-homozygous B-lymphoblastoid Cell Lines (B-LCL) <i>W. Leibold and R. A. Gatti</i>	321
Inhibition of Antigen-specific T-cell Lines by Monoclonal Antibodies <i>E. J. Ball, L. Myers and P. Stastny</i>	327
Antigen-specific B cell Growth Factor Production by Human T Cell Hybridomas: Inhibition by Monoclonal Antibodies to MHC Class II Antigens <i>E. C. DeFreitas, K. Haines, S. Goyert and J. Silver</i>	337
Stimulation of Secondary Lymphoproliferative Responses Inhibited by Monoclonal Antibodies Specific for Human MHC Class II Molecules <i>G. Pawelec, A. Ziegler, M. Blaurock and P. Wernet</i>	341
Inhibition of Lymphocyte Responses to Leukaemias by Monoclonal Antibodies to HLA-class II Antigens <i>M. Taylor, B. Fergusson, M. Steel and R. Harris</i>	351
Appendix: Table of Workshop Monoclonal Antibodies and a Synopsis of their Principal Characteristics.	363

Issue No. 3, July-September

<i>In Vitro</i> Expressions of Cancer Genes for Heritable Human Tumours: Numerical Alterations in Chromosome Complement <i>B. S. Danes</i>	371
HLA Antigens in the Congenital Rubella Syndrome <i>K. A. Shaver, J. A. Boughman, N. Kenyon, T. Mohanakumar and W. E. Nance</i>	381
HLA Antigens in Progressive Massive Fibrosis of Coal Workers <i>H. M. Dick, J. E. Boyd, M. Fitch, M. D. Robertson, J. M. G. Davis and R. Mandeville</i>	393
A Membrane Protein Antigen of Platelets and Non-T ALL <i>H. Zola, H. A. Moore, P. J. McNamara, I. K. Hunter, J. Bradley, D. A. Brooks, D. J. Gorman and M. C. Berndt</i>	399
Increased Frequency of C3 Fast Alleles in IgA Nephropathy <i>R. J. Wyatt, B. A. Julian, J. H. Galla and R. H. McLean</i>	419
Immunoglobulin Allotype Association with Autoantibodies in Myasthenia Gravis <i>M. J. Garlepp, P. H. Kay and R. L. Dawkins</i>	429
SHORT COMMUNICATIONS	
HLA and Lymphomas in Southern Region of Iraq <i>A. A. R. Jabbar and T. M. Al-Yassin</i>	437
Nomenclature for Clusters of Differentiation Antigens Defined on Human Leucocyte Populations <i>A. Bernard et al</i>	443
ANNOUNCEMENT	447

Issue No. 4, October-December

Reactivity of Lymphocytic and Myelocytic Leukemia Blasts with Monoclonal Antibodies Specific for the Different Human Class II Molecules <i>P. Wernet, C. P. Muller and P. Ostendorf</i>	449
Serum Proteins Alpha-1-antitrypsin (PI) and GC (VDBP) and Rheumatoid Arthritis <i>R. J. Mitchell and S. A. Fabb</i>	461
Neonatal Jaundice: A Search for Interaction between Erythrocyte Acid Phosphatase and Adenosine Deaminase Polymorphisms <i>E. Bottini, E. Carapella, F. Gloria-Bottini, E. Bonci and R. M. Corbo</i>	469
Malignant Lymphomas of Mucosa Associated Lymphoid Tissue <i>D. H. Wright</i>	477
Association of HLA-A3 with Paralytic Poliomyelitis <i>M. Hafez, H. El-Khayat, A. A. R. Yossef, F. A. El-Shennawy and R. M. El-Karamany</i>	489
Immunogenetics of IgA Nephropathy: Experience in a UK Centre <i>J. Feehally, P. A. Dyer, J. A. Davidson, R. Harris and N. P. Mallick</i>	493
Serum Lecithin Cholesterol Acyltransferase (LCAT) Activity is an Accurate Predictor of Post-operative Hepatic Failure <i>K. Takenaka, T. Kanematsu, K. Sugimachi and K. Inokuchi</i>	501
